

NUHA RILWAN

QA Engineer | Software Engineering Student | Full-Stack & AI Developer

nuharilwan2424@gmail.com | 0771683918 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Software Engineering undergraduate with experience in full-stack development, backend systems, and AI-based applications. Strong foundation in Java, OOP, databases, and REST APIs. Interested in backend engineering, scalable systems, and real-time applications.

SKILLS

Programming Languages: Java, Python, JavaScript, PHP, Ruby

Backend: Spring Boot, Laravel, Flask, Ruby on Rails, REST APIs

Frontend: HTML, CSS, JavaScript

Databases: MySQL, NoSQL (MongoDB)

AI / Computer Vision: ANN, CNNs, TensorFlow, OpenCV

Testing & QA: Selenium, Pytest, Postman, Manual Testing

Tools: Git, GitHub, VS Code, Postman

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Quick Learner

PROJECTS

SignBridge

Python, Flask, WebRTC, Socket.IO, HTML, CSS, JS

- Built a real-time browser-based two-user video communication platform with Sri Lankan Sign Language fingerspelling detection and text conversion.
- Implemented WebRTC signaling server using Socket.IO for peer-to-peer session setup and real-time connection management.
- Developed REST APIs for secure authentication and session token generation.
- Engineered real-time chat and backend coordination for low-latency messaging and synchronized video-text interaction.

Budgetly

MERN, Vite, JWT, bcrypt, Chart.js, Tailwind CSS

- Built a full-stack finance tracking application for managing income, expenses, and budgets with real-time analytics.
- Developed REST APIs for transaction management, category tagging, and monthly financial summaries.
- Implemented interactive dashboard with charts for spending analysis and income vs expense tracking.
- Added budgeting features including category limits, overspending alerts, and auto-categorization logic.

Bookbliss

Laravel, PHP, MySQL, HTML, CSS, JavaScript

- Built a full-stack web platform for reading progress tracking, challenges, and community interaction.
- Developed RESTful APIs and integrated backend services with frontend for consistent data flow.
- Implemented core features including authentication, reading progress tracking, and book discovery.
- Contributed to debugging, testing, and integration across frontend and backend systems in a team environment.

EDUCATION

Bachelor of Computer Science (Software Engineering)

July 2025 – November 2026

Edith Cowan University

- GPA: In progress

Diploma of Higher Education (Software Engineering)

February 2023 – February 2025

Staffordshire University

- Grade: Merit

General Foundation

July 2022 – February 2023

Asia Pacific Institute of Information Technology

- CGPA: 3.44

CERTIFICATION

Professional certificate in Web Development

Issued July 2025

Informatics Institute of Technology

- Grade: Distinction

Professional Certificate in Java Programming with Object Oriented |

Issued February 2024

Informatics Institute of Technology

- Grade: Distinction
